Legal Notices.

Presentation of Account. JOHN G. WEBSTER'S ESTATE.

STATE OF VERMONT, Caledonia District, 88.

STATE OF VERMONT, Caledonia District, ss. In Probate Court, held at the probate office in St. Johnsbury, in said district, on the 18th day of April, A. D. 1898.

Stephen O. Morse, Administrator upon the Estate of John A. Webster, late of Danville in said Distrect, decased, presents his administration account for examination and allowance, and makes application for decree of distribution and partition of the estate of said deceased.

Whereupon, it is ordered by said court, that said account and said application be referred to a session thereof, to be held at the Probate office in said St. Johnsbury, on the 12th day of May, A. D., 1898, for hearing and decision thereon: And it is further ordered that notice hereof be given to all persons interested, by publication of the same three weeks successively in the Caledonian, a newspaper published at St. Johnsbury, previous to said time appointed for hearing, that they may appear at said time and place, and show cause, if any they may have, why said account should not be allowed and such decremade.

By the Court, Attest:

By the Court, Attest: WALTER P. SMITH, Judge.

Liberation Notice.

This is to certify that I have given my son. Fred Chalmers, his time during the rest of his minority, and that I shall claim none of carnings and pay no debts of his contracting after this oate.

R. B. CHALMERS. North Danville, Vt , April 12, 1898

Commissioners' Notice. MARY HIGGINS' ESTATE.

The subscribers, having been appointed by the Honorable Probate Court for the district

St. Johnsbury, April 7, A. D. 1898.

A 350 p. m. a colored messenger from the 28th day of April and the 3d day of April and th The notification from Gen. Woodford Thursday brought relief to the President who brought the ultimatum Senor Polo Gen. Woodford had been directed to demand the withdrawal of the Spanish mand the withdrawal of the Spanish forces from Cuba and relinquish control of the island a copy of the ultimatum which Gen. Woodford intended to present was inclosed, so that the Spanish government was actually in possession of the terms of the communication before it proceeded to deal radically with the

United States representative in Madrid. The President's Ultimatum.

The ultimatum to Spain which was forwarded to Minister Woodford on Wednesday, recited the general tenor of the resolutions of congress demanding the withdrawal of Spain from Cuba, and asserted the determination of this government to leave the control of the island to its own people when peace has been established. The essential and closing part of the ultimatum was in these words:

"If by the hour of noon on Saturday next, the 23d day of April inst., there be not communicated to this government by that of Spain a full and satisfactory response to this demand and resolution whereby the ends of peace in Cuba shall be assured, the President will proceed without further notice to use the power and authority enjoyed and conferred upon Lim by the said joint resolutions to such extent as may be necessary to carry the same into effect."

Gen. Woodford's Departure.

A goodly number of journalists, friends and officials assembled at the railway station at Madrid Thursday to see Gen. Woodford off. The carriage of the Min-ister arrived accompanied by Senor Aquilera, governor of Madrid, and an escort of the Guardia Civil.

Gen. Woodford descended from the carriage and was followed by Capt. Bliss, the military attache. Together they walked in silence, hats in hand, through the waiting room to the platform, where Gen. Woodford greeted his friends. The German, Austrian, British and Russian embassies were represented by secretaries. Many uniformed officers shook hands with Gen. Woodford as they bade him farewell.

As the train moved away from the platform there were loud cries of "Long live Spain!" from the crowd. When the cars were clear of the platform Gov. Aquilera, who is a big man with a powerful voice, cried:

"Gentlemen, now that we are alone and can give offence to none, let us cry Vive Espana!' " at the same time waying his hat. The patriotic cry was given with great enthusiasm. There was no

Senor Polo's Departure from Washington. The ultimatum of the United States to Spain was delivered to Minister Polo soon after 11 o'clock Wednesday. The

that the minister had felt called upon to is. take this step.

Senor Polo and six members of his staff left Washington at 7.30 Wednesday night, going by way of the Pennsylvania railroad to Buffalo and thence to Toronto. From there they will go to Halifax to

take an ocean liner.
These were the ambassador's parting words on leaving Washington: gard war as a certainty, because Spain has come to the last degree of humiliation and will never accept any conditions contrary to her sovereignty over Cuba; never while a Spaniard lives. The war will last until Spain has shown America her superiority. America should have left Spain to attend to her own business and not interfered where she had no

THEODORE ROOSEVELT Assistant Secretary of the Navy.

The President has decided to appoint Theodore Roosevelt of New York, the present assistant secretary of the navy, to be a lieutenant colonel of United States volunteers to serve in a regiment of cowboys and mounted riflemen to be raised by Mr. Roosevelt and Dr. Wood, the President's family physician, who is now in the medical department of the regular army. Dr. Wood will be colonel of the

The Nashville Captures a Spanish Vessel in the

The United States Cruiser Nashville has captured the Spanish ship Buena Ventura, 1151 tons. The Nashville first fired a blank shot, which the Spaniards disorder of any kind attending the departure of the representative of the United States.

Gen. Woodford reached the frontier Gen. Woodford reached the frontier Gen. Woodford reached the frontier then surrendered with her crew of 20

the harbor at Key West, and put a prize crew on board. The news of the capture of the Spaniard set the people of Key West frantic with enthusiasm. All work The Catalina was captured 12 miles there has been suspended and the docks are crowded with excited people.

How the Spoil is Divided.

The Spanish merchantman Buena Ven-tura, captured off Sand Key Light by the United States gunboat Nashville Friday, is said to be worth, with her cargo, \$500,000. This is the way the prize money will be divided if it turns out that the boat was captured when war existed, when the ship and cargo are sold: Value of the prize, \$500 000; government's share, one-half, \$250,000; Rear Admiral Sampson's share, one-twentieth, \$25,-000; Fleet Captain Staunton's share, one one hundredth, \$5000; balance to be divided among officers and men of the Nashville, \$220,000; Commander Maynard, one-tenth of ship's share, \$22,000; Executive Officer Dillingham, \$3250; Navigating Officer Winslow, \$3250; Ensign Magruder, \$1750; Ensign Keunzli, \$1750; Ensign Snow, \$1750; Ensign Walker, \$1750, Chief Engineer Freeman, \$4000; passed assistant engineer, \$2500; assistant engineer, \$2120; Assistant Surgeon Pleadwell, \$2375; Assistant Paymaster O'Leary, \$2375; Pay Clerk Inglehart. \$2375; boatswain, \$1500; gunner, \$1500; carpenter, \$1500; 300 petty officers and enlisted men, average share each, \$550 80.

The Proclamation of Blocade of Cuba Issued by the President.

President McKinley issued a proclamation Thursday demanding that Spain at once relinquish its authority and govern ment in the island of Cuba, and withdraw its land and navaltorces from Cuba and Cuban waters; and the President of the United States was directed and empowered to use the entire land and naval forces of the United States, and to call into actual service of the United States the militia of the several states to such extent as might be necesary to carry said resolution into effect. He also said that any vessel approaching any of the block-aded ports, or attempting to leave the same, without notice or knowledge of the establishment of such blockade would be duly warned by the commander of the blockading forces, who will endorse on her register the fact and the date of such warning, where such endorsement was made; and if the same vessel should again enter any blockaded port, she should be captured and sent to the nearest convenient port for such proceedings against her and her cargo as prize as may be deemed advisable. A New Member for the Cabinet.

Charles Emory Smith of Philadelphia, whose nomination as postmaster general was confirmed Thursday by the senate, took the oath of office Friday morning at 11 o'clock, in the cabinet room of the White House in the presence of the President, the members of the cabinet and a number of other prominent people.

President McKinley signed a proclamation, Saturday, calling for volunteers to the aggregate number of 125,000. These are to be apportioned as lar as practicable, among the several states and territories and the District of Columbia, according to population, and to serve for two years, unless sooner discharged.

After a chase of several miles the Spanish steamship Pedro was captured by the cruiser New York, Friday afternoon. The Pedro hails from Bilbas in the north of Spain. 'She had discharged a cargo of rice, beer and iron at Havana, and was minister was prepared for action, and to of Cuba, to discharge some structural the same state department messenger iron for engineering purposes. She car-

More Ships Captured.

Ensign Christy, with a crew of 16 from the cruiser Detroit and four from the flagship New York, brought into port at Key West Sunday afternoon the captured Spanish steamer Catalina, Capt. Fano, 3491 tons, which left Cadiz March

> "Which Wins?" In nearly every man's ca-

In nearly every man's career there comes a time when he stands between the angel of life and the angel of death, both contending for his mortal frame, and the question arises:

"Which wins?" Will he be carried away by disease and death or will the angel of life prove the stronger and bring him back to happiness? man's enertical force ly weakened down to the until persum thaps conhas already laid its grim hand upon him,

haps conhas already laid its grim hand upon him, and doctor after doctor and medicine after medicine have been tried in vain—now, perhaps, comes some kind friend who says, "Dr. Pierce can cure you, write to him: His "Golden Medical Discovery" has rescued thousands who were further gone than you."

"He is chief consulting physician of the Invalids' Hotel and Surgical Institute, of Buffalo, N. Y.; he has been at the head of this great Sanitarium for thirty years; he has probably had more experience in treat-

has probably had more experience in treat-ing severe chronic diseases than any other physician living. Write to him anyway; that will cost you nothing. He will gladly and freely answer your letters with friendly, fatherly advice which will be of value beyond all price!"

Now is the critical instant. Will the

patient give up in despair and let the angel of disease drag him away from wife and family and children, or will he grasp the hand of the angel of life in one more supreme effort for restoration? Are you standing between the contending angels? Which wins?

Mrs. Emily Howe, of 7 Park Avenue, Chicago, Ills., writes: "About two years ago my son was afflicted with what seemed to be symptoms of consumption. I purchased three bottles of Dr. Pierce's Golden Medical Discovery and it cured him completely." The People's Common Sense Medical

Adviser, a 1000-page illustrated volume by R. V. Pierce, M. D., will be sent free for cost of mailing only,—21 one-cent stamps.

CONSUMPTION

The Catalina was captured 12 miles from Havana by the cruiser Detroit. She is carrying a cargo of 6000 tons of staves, and is a steel vessel with six

bulkheads. The United States gunboat Helena captured the Spanish steamer Michael Jover, Sunday morning, whose cargo is composed of cotton and staves. prize is estimated at \$400,000, her cargo alone being worth \$150,000. She was bound from New Orleans for Barcelona, by way of Havana. She has a crew of

Still another prize, the schooner Mathilde of Havana, laden with rum, was captured Saturday afternoon. schooner was taken by the torpedo boat Porter after a lively chase during which a number of solid shots were fired. A prize crew from the Porter was put on board the schooner, but no ship could be spared to convoy her and she was brought into Key West in tow of the Associated Press dispatch boat Daunt-less. The Dauntless reported that the fleet had divided. The Nashville and the Machias or Castine sailed west at 10 o'clock Saturday morning, while the Amphritrite, the Puritan, the Cincinnati and the Castine or Machias sailed east

Another capture was made Sunday morning when the Ericsson caught a little Spanish two-masted schooner, carrying a crew of five men. The torpedo boat had no prize crew to put aboard, so she chased her to the fleet and tied her up alongside the Cincinnati.

A special from Biloxi Miss., says the revenue cutter Winona from Mobile captured the Spanish steamer Saturnina at Ship Island, Miss., at 1 o'clock Sunday, but it is likely she will have to remain in quarantine with the prize until the time of quarantine is out, Monday or Tues-The Saturnina is from Sagua to

Ship Island, 1976 tons.

A dispatch to the New York Press from Key West, says that the United States gunboat Willimington has cap-tured the Spanish schooner Candidia, with a deck load of charcoal intended for Havana, and that the torpedo boat Porter has captured the schooner Antonio, loaded with sugar for Havana.

The Horrors of Rheumatism.

A woman's account of torture which lasted three years; of her struggles against the dreadful disease, and the good fortune that crowned her efforts.

Such suffering as rheumatism causes the victims upon whom it fastens itself is al-most unendurable.

Sufferers from the worst types of this terrible disease will supply the missing hor-rors in the following story from real life. Those who writhe under milder forms of rheumatism will be able to imagine the

feelings of the tortured victim. The only justification for making public such heart-rending details is the fact that the lesson taught will be helpful to others, pointing the way to renewed life and health

to every sufferer from rheumatism.

The story is told by a woman. Her name is Mrs. Caleb Fenly; she lives in St. Paul, Ind.

This is her account:
"I am a farmer's wife. I believe my frequent exposure to the weather caused my terrible attack of rheumatism. Damp weather always aggravated it.
"My limbs would begin to swell at the

ankle joints.

"This swelling would begin in the night, at times. I would awake in agony.
"Daylight would find my limbs purple in color, swollen to twice their natural size, and so racked with pain I could not bear

and so racked with pain I could not bear to touch them.

"My right arm and both legs were so drawn as to be almost useless.

"My skin became dry ard yellow.

"At times my limbs would pain as though millions of needles were pricking

them. "Again they would be numb and I

could not feel a needle thrust into my flesh.

"I was confined to the house three years, unable to walk nearly half the time.

"After those three slow years of agony, during which I spent probably \$2,000 for treatment and tried a dozen doctors, I gave up hope of any release from pain, but death.
"I was cured, completely cured, by Dr.
Williams' Pink Pills for Pale People. They

"The first dose gave me appetite.

"After the second dose I slept soundly, the first time within a year.

"I sent for a dozen boxes. By the time I had taken the contents of eleven boxes I felt entirely well.

felt entirely well.

"The doctor said I was cured. He was greatly impressed, and since then he has prescribed Dr. Williams' Pink Pills for Pale

People for many of his patients."

Mrs. Fenly, together with her husband, made affidavit to the exact truth of the foregoing account before Notary P. N. Thomas.

The cure of the severest cases of rheumatism by Dr. Williams' Pink Pills for Pale People has occurred in every state in the Union, and its power in ordinary cases is proport onately greater.

is proportionately greater.

These marvelous vegetable pills go directly to the seat of the trouble. They build up a new cellular structure in the diseased parts by eliminating poisonous elements and renewing health-giving chemical forces in the blood.

They are for each by designing success.

They are for sale by druggists every-where; for 50 cents a single box or \$2.50

America's Ten Greatest **Dairying Authorities on** Cream Separators.

The Wisconsin Agricultural Experiment Station.

Madison, Wis., July 13, 1897.
In conducting our Dairy School, we have had occasion to use the various sizes of Improved U. S. Separators for dairy instruction during several winters past, Our students have always been pleased with the operation of these Separators, and we find that they skim the milk very clean indeed from fat, and that they are generally very satisfactory.

W. A. HENRY, Dean College of Agriculture.

Cornell University Experiment Station.

We have used the U. S. Separators for the past four or five years, and have found them at all times efficient and reliable. They are easily cleaned and kept in order, and can be depended upon for satisfactory work.

H. H. WING, Prof. Dairy Husbandry.

Massachusetts Agricultural College.

AMHERST, MASS., July 7, 1807.

We regard the Improved United States Separator as one of the very best all round machines. In cleanness of skimming it surpassed all the others. It compares favorably with the rest in capacity. Our man calls it the smoothest running machine we have, although it has been in use nearly three years—a good comment on its wearing qualities.

F. S. COOLEY, Prof. of Ag't.

Michigan Experiment Station. Your No. 5 Separator was received, set up, and has been operated daily since the 4th of January. Each of our dairy boys has now had a turn at it, setting it up, running it, washing it, and testing the skim-milk. They all like the machine, on account of its easy running and simplicity. We are running through milk 12 to 24 hours old, warmed to over \$5 and usually about 50 degrees. The percent, of fat in the skim-milk, so far as reported, will not reach on the average a tenth of a per cent, and often is too small to read, in the skim-milk bottle. We are pleased with the machine in every possible way, as far as we have been able to observe it in a month's use.

CLINTON D. SMITH, Director Michigan Experiment Station.

1893 Record Equally as Good. AGRICULTURAL COLLEGE, Mich., March 25, 1898.

I do not know that I have anything to add to what I wrote you in January, 1897, or any changes to make in the statements therein made (see above).

University of Vermont and State Agricultural College, Burlington, Vr. June 2, 1897.

It has been the uniform custom of the officers of the Vermont Station to decline to issue letters of a testimonial nature. I may say, however, that I can and do refer parties inquiring regarding the merits of the Improved United States Separators to the records of the running of the same as published in our report for 1894. Vermont Experiment Station. (The tests referred to are as follows):

The results obtained by the use of these machines at our Dairy Schools of the past two years are full better, so far as the character of the skimming is concerned, than those given in the report.

JOSEPH L. HILLS (Director Vt. Experiment Station).

Iowa Experiment Station.

AMES, IOWA, Jan. 25, 1807.

Your two machines have been here in use for some time and are doing excellent work.

We have succeeded in skimming over \$,600 pounds per hour, and as close as 0.07 of one per cent. of fat left in skim-milk, with the larger machine. This we consider excellent work for the winter. The small machine also does good work.

G. L. McKAY, State Dairy Instructor, Iowa Ag'l College.

Again in June; Iowa Experiment Station. .

AMES, IOWA, June 25, 1897.

Your large size factory machine has been doing excellent work. We have used it six days per week for the past two months, and it skims to a trace right along, skimming 2,500 to 2,700 pounds per hour.

G. L. McKAY, State Dairy Instructor.

Ohio State University.

COLUMBUS, OHIO, June 25, 1897.

Enclosed you will find statement of the several runs made with your various Enclosed you will find statement to show the following):

Separators:
(Tests from the runs referred to show the following):

January 15.....0.02 February 2.....0.00 February 15.....0.02

18 tests show not over 0.05 of one per cent, of fat.
Of course, you will understand that these runs were made by students who at the beginning had no knowledge of separator work. The same efficiency can hardly be expected under such circumstances as where operated by an expert.

THOMAS F. HUNT (Professor of Agriculture).

Idaho Experiment Station.

Moscow, Idaho, March 26, 1897.

Our Dairy School has just closed, having had a very successful career. We have used daily one of your No. 5 Improved U.S. Separators. It has given perfect satisfaction, and is the favorite with all the boys.

CHAS. P. FOX, Professor of Agriculture. Connecticut Experiment Station.

The Improved U. S. Steam Turbine is running every day, and has been since April. It is an easy-running and thorough skimming machine.

In two recent tests, made on different days, running a trifle over 700 lbs. of No. 1, 0.06 of 1 per cent, butter fat.
No. 2, 0.07 "
This is as close as any one could ask for.
A. W. OGDEN, Chemist, Conn. Ag'l Experiment Station.

Missouri Experiment Station.

The Improved U. S. Hand Separator was used in our Dairy School during the winter term to the entire satisfaction of instructors and students, and did most excellent work.

J. H. WATERS, Dean and Director,

The Improved United States Separators are now not almost but altogether universal. The number in use is 126,000, more or less. Their sale is eleven to one of all imitating machines combined. The latest improvements carry them still further to the front. Send for new Dairy catalogue No. 201 or new Creamery catalogue No. 196.

VERMONT FARM MACHINE CO.,

Bellows Falls, Vt.
